TECHNICAL EDUCATION & SKILLS DEVELOPMENT FRAMEWORK

Module 3: Practicing Career Professionalism

Unit Code: 500311107 **Nominal Duration:** 1.0 Hour **Level:** Basic Competency

1. UNIT DESCRIPTOR & LEARNING OUTCOMES

This module covers the knowledge, practical skills, and behavioral attitudes needed to promote career advancement, maintain ethical conduct, align individual performance with corporate priorities, and manage personal growth within the technological workplace.

Outcome 1 (LO1)
Integrate personal objectives with organizational goals, code of ethics, intra/interpersonal relations, and professional standards.

Outcome 2 (LO2)
Set and meet work priorities through Key Result Area (KRA) management, efficient resource utilization, and equipment care.

Outcome 3 (LO3)
Maintain professional growth and development through training opportunities, industry certifications, and gender sensitivity (GAD).

2. PROFESSIONAL DEVELOPMENT & GOAL ALIGNMENT MATRIX

3. PERFORMANCE CRITERIA MATRIX: ORGANIZATIONAL INTEGRATION (LO1)

Assessment Element	Performance Standards & Indicators	Assessment Method
Personal Work Plan	Individual targets and growth plans are aligned with organizational visions, institutional values, and key deliverables.	Portfolio assessment & Interview
Code of Ethics	Workplace ethics, integrity, confidentiality of corporate files, and mutual respect among peers are strictly maintained.	Direct observation & Case study
Grooming & Deportment	Appropriate personal hygiene, workplace dress code, and professional interpersonal conduct are consistently observed.	Workplace observation checklist

4. PRIORITIZING TASKS & SUSTAINING DEVELOPMENT (LO2 & LO3)

Managing operational deadlines requires structured triage of competing responsibilities alongside economic use of enterprise equipment. Furthermore, sustained career advancement relies on pursuing qualifications, industry certifications, and Gender and Development (GAD) awareness.

Competency Focus	Procedural Standard	Verifiable Output
KRA Management	Categorize daily tasks by urgency and impact; establish time budgets for high-value targets.	Daily prioritized task schedule
Resource Stewardship	Utilize consumables (paper, toner, storage) economically and operate hardware within manual limits.	Maintenance & supply log
Professional Growth	Identify career ladders, seminar offerings, and technical certification pathways (e.g., CSS NC II).	Individual development roadmap
Workplace Inclusivity	Apply gender sensitivity, non-discriminatory language, and equal opportunity principles at work.	GAD compliance verification

5. PRACTICAL SCENARIO: KRA BALANCING & RESOURCE ALLOCATION

Workplace Dilemma: At 9:00 AM, your supervisor requests urgent statistical tables for an 11:30 AM executive review. Simultaneously, a workstation printer experiences paper feed jams, and a teammate requests assistance compiling morning logs.

PRIORITIZATION PLAN & ACTION LOG

Priority 1 (Urgent & High Impact): Draft and review executive statistical tables first to meet strict 11:30 AM cutoff.

Priority 2 (Secondary / Delegation): Instruct teammate on jam clearing or route printing to secondary networked printer.

Equipment Integrity Note: Ensure all power switches and protective covers are replaced before leaving the hardware station.

6. TRAINEE ASSESSMENT & EVALUATION RUBRIC

Evaluation Domain	Competent Standard (Pass)	Not Yet Competent
Goal Alignment	Articulates how personal growth directly reinforces organizational efficiency and codes of conduct.	Focuses exclusively on personal goals without institutional awareness.
Work Prioritization	Systematically ranks urgent tasks; maximizes equipment lifespan and resource use.	Fails to meet key deadlines; mismanages consumable supplies.
Continuous Development	Demonstrates awareness of certification tracks, ethics, and gender-inclusive behavior.	Indifferent to professional upgrades or displays non-inclusive conduct.
