COURSE SYLLABUS: BASIC COMPUTER LITERACY

Based on the TESDA Competency-Based Curriculum Framework

I. COURSE INFORMATION

- Course Title: Basic Computer Literacy
- Nominal Duration: 80 Hours
- Qualification Level: Diploma Course / National Certificate Foundation
- Curriculum Code / Reference: TESDA-OP CO-01-F11 (Rev. No. 00-03/08/17)

Course Description

This course is designed to enhance the knowledge, skills, and attitudes of a trainee/student in core competencies such as Operating a Word-Processing Application, Using E-mail and Searching the Web Using Browsers, Operating a Spreadsheet Application, and Operating a Presentation Package in accordance with industry standards. It also integrates common competencies (Applying Quality Standards, Performing Computer Operations) and basic workplace competencies (Workplace Communication, Teamwork, Career Professionalism, and Occupational Health and Safety Procedures).

II. TRAINEE ENTRY REQUIREMENTS

Candidates or students seeking admission to this course must satisfy the following criteria:

- Ability to communicate effectively (oral and written).
- Physically and mentally fit.
- With good moral character.
- Ability to perform basic mathematical computations.

III. TRAINER / INSTRUCTOR QUALIFICATIONS

- Must be a holder of Computer Systems Servicing (CSS) NC II or equivalent qualification.
- Must have undergone Training Methodology I (TM I).
- At least one (1) year of job/industry experience or related computer coursework.
- Must have passed relevant government/institutional qualifying assessments.
- Must be computer literate, physically, and mentally fit.

IV. COURSE ALLOCATION AND STRUCTURE

Category	Module Code & Title	Nominal Duration
Basic Competencies	**Subtotal**	**4 Hours**
	Module 1: Participating in Workplace Communication	1 Hour
	Module 2: Working in a Team Environment	1 Hour
	Module 3: Practicing Career Professionalism	1 Hour
	Module 4: Practicing Occupational Health and Safety Procedures	1 Hour
Common Competencies	**Subtotal**	**4 Hours**
	Module 5: Applying Quality Standards	2 Hours
	Module 6: Performing Computer Operations / Operating a Personal Computer	2 Hours
Core Competencies	**Subtotal**	**72 Hours**
	Module 7: Operating a Word Processing Application	18 Hours
	Module 8: Using E-mail and Searching the Web Using Browsers	18 Hours
	Module 9: Operating a Spreadsheet Application	18 Hours

Category	Module Code & Title	Nominal Duration
	Module 10: Operating a Presentation Package	18 Hours
Total Duration		**80 Hours**

V. DETAILED MODULES OF INSTRUCTION

MODULE 1: PARTICIPATING IN WORKPLACE COMMUNICATION (1 Hour)

- **Module Description:** Covers the knowledge, skills, and attitudes required to obtain, interpret, and convey information in response to workplace requirements.
- **Learning Outcomes:**
  - **LO1: Obtain and convey workplace information** (Parts of speech, sentence construction, effective communication, questioning and active listening skills).
  - **LO2: Participate in workplace meetings and discussions** (Meeting protocols, courteous interaction, technical communication).
  - **LO3: Complete relevant work-related documents** (Standard enterprise forms, record keeping, basic routine calculations).

MODULE 2: WORKING IN A TEAM ENVIRONMENT (1 Hour)

- **Module Description:** Covers the skills and attitudes required to relate and function within a work-based team setting.
- **Learning Outcomes:**
  - **LO1: Describe and identify team role and responsibility in a team.**
  - **LO2: Work as a team member** (Group planning, reporting structures, collaborative workflow).

MODULE 3: PRACTICING CAREER PROFESSIONALISM (1 Hour)

- **Module Description:** Covers personal growth and career advancement, aligning personal objectives with organizational goals, setting priorities, and continuous development.
- **Learning Outcomes:**
  - **LO1: Integrate personal objectives with organizational goals** (Code of ethics, interpersonal relations, personal hygiene and conduct).
  - **LO2: Set and meet work priorities** (Managing Key Result Areas, efficient resource utilization, economic maintenance of equipment).

- **LO3: Maintain professional growth and development** (Continuous training, GAD sensitivity, qualifications and certifications).

MODULE 4: PRACTICING OCCUPATIONAL HEALTH AND SAFETY (OHS) PROCEDURES (1 Hour)

- **Module Description:** Covers compliance with regulatory and organizational safety requirements.
- **Learning Outcomes:**
  - **LO1: Identify hazards and risks** (Workplace safety indicators, threshold limit values).
  - **LO2: Evaluate hazards and risks** (Ergonomics, Philippine OHS standards).
  - **LO3: Control hazards and risks** (Clean Air Act, fire and electrical safety, disaster preparedness, PPE usage).
  - **LO4: Maintain OHS awareness** (Emergency drills, safety record keeping, maintaining PPE).

MODULE 5: APPLYING QUALITY STANDARDS (2 Hours)

- **Module Description:** Covers the application of quality control, safety procedures, and organizational guidelines.
- **Learning Outcomes:**
  - **LO1: Assess quality of received materials** (SOP adherence, fault detection and reporting).
  - **LO2: Assess own work** (Checking performance against standards, documenting deviations).
  - **LO3: Engage in quality improvement** (Process optimization, customer satisfaction monitoring).

MODULE 6: PERFORMING COMPUTER OPERATIONS (OPERATING A PERSONAL COMPUTER) (2 Hours)

- **Module Description:** Defines skills to start PC, log in, configure settings, organize files, run applications, and shut down safely.
- **Learning Outcomes:**
  - **LO1: Start and shut down computers** (Connecting peripherals, power boot, OS navigation).
  - **LO2: Arrange and customize desktop/windows settings** (Desktop icons, window elements, help utility).

- **LO3: Work with files and folders** (Directories, file management, storage media handling).
- **LO4: Work with user application programs** (Installing, running, switching between software).
- **LO5: Print information** (Configuring default printers, managing print queues).

MODULE 7: OPERATING A WORD PROCESSING APPLICATION (18 Hours)

- **Module Description:** Covers comprehensive word processing operations for formal document preparation.
- **Learning Outcomes:**
  - **LO1: Create documents** (Keyboard/mouse shortcuts, document navigation, templates, saving/retrieval).
  - **LO2: Format documents according to user requirement** (Typography, alignment, line spacing, bullets, grammar checking).
  - **LO3: Change page layout and appearance** (Margins, orientation, breaks, headers/footers, table of contents).
  - **LO4: Create and format tables** (Inserting tables, formatting cells/rows/columns, border design).
  - **LO5: Add images and graphic elements** (Inserting images, text wrapping, cropping, shape drawing).
  - **LO6: Mail Merge and print word processing documents** (Form letters, mailing labels, envelope printing, print preview).

MODULE 8: USING E-MAIL AND SEARCHING THE WEB USING BROWSERS (18 Hours)

- **Module Description:** Covers internet browsing, research techniques, and business electronic communication.
- **Learning Outcomes:**
  - **LO1: Access the Internet** (Browser configuration, URLs, web page navigation).
  - **LO2: Search the Internet** (Search syntax, search engines, bookmarks, web citations).
  - **LO3: Send and organize messages** (Email composition, file attachments, priorities, CC/BCC, mail folders, archiving).
  - **LO4: Create and manage an Address Book** (Distribution lists, contact management).

MODULE 9: OPERATING A SPREADSHEET APPLICATION (18 Hours)

- **Module Description:** Covers data organization, mathematical operations, data analysis, and report generation in spreadsheets.
- **Learning Outcomes:**
    - **LO1: Create and save worksheets** (Entering cell data types, writing arithmetic and statistical formulas).
    - **LO2: Customize basic settings and format worksheets** (Font styling, cell borders, number/currency formatting, layout margins).
    - **LO3: Incorporate objects and charts in worksheets** (Bar charts, pie charts, line graphs, data visualization).
    - **LO4: Print worksheets** (Setting and clearing print areas, scaling, orientation, headers/footers).

MODULE 10: OPERATING A PRESENTATION PACKAGE (18 Hours)

- **Module Description:** Covers creating effective, visually engaging slide presentations.
- **Learning Outcomes:**
    - **LO1: Create presentations** (Slide layouts, placeholder text, formatting concepts, templates).
    - **LO2: Customize basic settings** (Design templates, themes, color schemes, background styling).
    - **LO3: Format presentations** (Bullet hierarchies, object alignment, tables, diagram integration).
    - **LO4: Add slideshow effects** (Transitions, object animation timing, presentation preview).
    - **LO5: Print presentations and notes** (Speaker notes, handouts, print setup).

VI. TEACHING METHODOLOGIES & DELIVERY MODES

- **Interactive Lecture and Discussion:** Instructor-led conceptual framing and system overviews.
- **Demonstration and Return Demonstration:** Hands-on laboratory training with direct application.
- **Modular & Self-paced Learning Guides:** Guided instructional materials for individual practice.
- **Practical Simulation and Role-playing:** Real-world workplace scenarios and tasks.

VII. ASSESSMENT & EVALUATION CRITERIA

Trainees are evaluated through competency-based grading aligned with the TESDA CBC Framework:

Assessment Method	Description	Weight
Written Examination	Computer-based knowledge test covering basic concepts and core theory.	30%
Practical Skills Demonstration	Hands-on laboratory performance, file creation, and software operations.	50%
Observation & Interview	Direct observation, portfolio review, and practical oral questioning.	20%

*Grading Standard: Final assessment outcomes are designated as either **Competent** or **Not Yet Competent**.*

VIII. REQUIRED RESOURCES & LABORATORY EQUIPMENT

Calculated for a standard class size of 30 trainees:

Category	Items & Specifications
Hardware & Equipment	30 Computer Workstations with Internet Access1 Central Server / Switch / Router / ModemAutomatic Voltage Regulator (AVR) / UPS units1 Network Laser Printer & 1 Scanner1 Digital Projector / LCD Display (32"+)
Software	Licensed Operating System (Windows)Office Productivity Suite (Word Processing,

Category	Items & Specifications
	Spreadsheet, Presentation)Standard Web Browser & Email Client software
Tools & Consumables	Screwdriver sets (Philips/Flat) & Anti-static Wrist StrapsTrainee Handouts, Learning Modules, and ManualsPrinting Paper (A4/Letter) & Ink CartridgesExternal Storage Media (USB flash drives)
